

AEROGEN PRODUCT GUIDE

Aerogen[®]
Pioneering Aerosol Drug Delivery

Continuum of Care

Aerogen can be used across multiple modalities for ventilated and non-ventilated patients

Pediatric

Adult

Aerogen® Solo

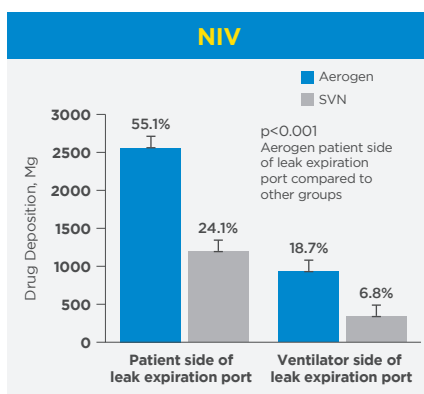

- Quick and easy to set up¹
- Virtually silent²
- Single patient use¹

Aerogen achieves superior drug delivery

Ari A. et al. 2010³

Abdelrahim et al. 2010⁴

CONFIDENCE AND CONSISTENCY OF PATIENT CARE

- ✓ Refill medication without breaking the circuit¹
- ✓ Can be used with all medications for inhalation*
- ✓ No heating or degradation of medication¹
- ✓ Minimal residual volume (<0.1ml for 3ml dose)¹
- ✓ High speed of delivery⁵
- ✓ Does not affect ventilator parameters¹
- ✓ Suitable for solutions, suspensions, proteins and peptides⁶
- ✓ Can be placed at the wye or at the humidifier¹

*which are approved for use with an SVN¹

Aerogen® Ultra

- Delivers significantly more medication in half the time¹
- Improves patient response to treatment²
- Works with and without O₂³
- Can be used with either a mask or mouthpiece³

Aerogen Ultra delivers 6X greater lung dose*

Aerogen Ultra

SVN

Lung dose delivered: Ultra (34.1%), SVN (5.2%) (p<0.001)

Residual dose volume: Ultra (2.4%), SVN (62.8%) (p=0.008)

Nebulisers were filled with diethylenetriaminepentaacetic acid labelled with technetium-99 m (99mTc-DTPA, 2 mCi/4 mL) Dugernier J. et al 2017⁴

*Aerogen Ultra compared to an SVN.

SUPERIOR PATIENT CARE WITH AEROGEN ULTRA

In a comparison study with an SVN, Aerogen Ultra resulted in a:

32%

reduction in ED admission rates⁵

75%

reduction in medication⁵

37 min

reduction in ED median length of stay⁵

AEROGEN POWER SOURCES

Aerogen Pro-X Controller

- ✓ 30-minute and continuous mode options¹
- ✓ 45-minute battery life for patient transfer within the hospital¹

Aerogen USB Controller

- ✓ 30-minute and 6-hour mode options while connected²

AEROGEN CONTINUOUS NEBULISATION TUBE SET

- ✓ Works with standard syringe pumps¹
- ✓ Non-standard luer connectors eliminate the risk of misconnection¹
- ✓ Precise volumetric dosing for reliable, controlled aerosol delivery¹
- ✓ Drop-by-drop continuous nebulisation.¹

High performance aerosol drug delivery

At the heart of every Aerogen device is our unique **palladium vibrating mesh technology**.

Aerogen vibrating mesh technology comprises a unique dome-shaped aperture plate perforated with **over 1,000 precision formed tapered holes**.

When energy is applied, the aperture plate vibrates at **128,000 times a second** producing a low-velocity, fine particle, nebulised mist of consistently sized droplets (1-5 μ m)¹ to achieve superior lung deposition of medication.^{2, 3}
